We have been providing comprehensive commercial real estate services since 2006 in Southwest Oklahoma based in Lawton, and we take pride in providing a world-class service to our clients.

Founder, Jason Wells, hails from Lawton, OK, but it was his love and talent for the game of football that carried him to Dallas, TX early in his career. While playing for the Dallas Desperados Arena Football Team, Jason was introduced to its owners, the Jerry Jones family. The Jones' became instrumental in helping catapult Jason into a new arena: commercial real estate. Through the guidance and expertise of his advisors, Jason was afforded many unique learning opportunities, many of which included brokering high-value transactions in one of the largest cities in the United States. The booming Dallas market helped Jason discover innovative practices and principles that are necessary to create and sustain a thriving market while also learning the key to gaining a competitive edge.

After Jason learned the ins and outs of commercial real estate acquisition, development and management, he decided to bring his talent, resources and tools back home to Southwest Oklahoma. His emphasis was placed on the communities of Lawton, Duncan, Elgin, Cache and other surrounding areas. Insight Commercial Real Estate Brokerage was established in

2006 with one goal in mind: to provide a hands-on personalized approach for each client's specific commercial needs. Through the years, this vision has stuck with the team at Insight. Fast forward and it is clear why Insight has become the premier commercial real estate brokerage in Southwest Oklahoma. With many notable projects, the team at Insight takes pride in each development, no matter the size. Clients can rest assured knowing their needs will be met by a team of knowledgeable and highly qualified team members who truly care about their success. Whether a client is looking to buy, sell, lease, or develop, Insight Commercial Real Estate Brokerage aims to bring your goals to fruition. Let our team show you the Insight difference!
